Karin Amalina Zata Amani

Software Engineer | System Analyst

Bekasi, Indonesia | amalinakarin@gmail.com | LinkedIn I Portfolio

SUMMARY

A fresh graduate from Universitas Bina Nusantara, majoring in Computer Science, with one year of internship experience as a Programmer. Experienced in developing and maintaining applications using React.js and Node.js, with exposure to requirements analysis and the Software Development Life Cycle (SDLC). Familiar with JavaScript, SQL, and Java, with an interest in pursuing a career as a System Analyst.

EDUCATION

Universitas Bina Nusantara | Jakarta, Indonesia

Bachelor of Computer Science (Aug 2022 - Aug 2026)

- **GPA** (3.62 /4.00) [transcript]
- **Relevant Courses/Studies**: Software Engineering, Mobile Programming, Database Technology, Object-Oriented Programming
- **Thesis Title**: *Development Of An Android Mobile Application For Beauty Service Recommendation Using The Simple Additive Weighting (SAW) Method*

PROFESSIONAL EXPERIENCE

PT Pro Sistimatika Automasi (PROSIA) | Jakarta, Indonesia

Programmer Intern (Feb 2025 – Feb 2026*)*

- Identified and resolved bugs across frontend and backend systems using React.js and Node.js
- Implemented small-scale features and enhancements, including database-to-UI data integration and an Excel export function
- Followed a Git feature-branch workflow, creating branches, pushing changes, and coordinating with senior developers for code review before deployment

PROJECT EXPERIENCE

Key (**2026***)*

Thesis Project - Android Studio, Java, Figma

- Developed an Android application connecting customers with beauty service providers, enabling users to discover providers, book services, and manage reservations.
- Implemented core application functionality using Java and integrated Firebase for data management.
- Designed provider-side UI/UX in Figma and refined interfaces across user and provider workflows.
- Created UML diagrams, including use case, activity, and sequence diagrams, using Visual Paradigm.
- Authored the majority of the thesis documentation, covering system design, implementation, and testing.

EventGo(**2025***)*

Final Project Mobile Programming Course - Android Studio, Java, Figma

- Developed the event ticket booking functionality using Java.
- Implemented user authentication using Firebase Authentication.
- Integrated Firebase Realtime Database to manage application data.

HONORS, AWARDS & SKILLS

- **Technical Skills**: React, JavaScript, Java, SQL, Figma, Node.js, C, Laravel
- **Interpersonal Skills**: Problem Solving, Teamwork, Time Management
- **Languages:** Indonesian (Native), English (Intermediate)
