Karin Amalina Zata Amani

Computer Science Graduate | Software Development & System Analysis

Bekasi, Indonesia | amalinakarin@gmail.com | LinkedIn I Portfolio

SUMMARY

A Computer Science graduate from Universitas Bina Nusantara, majoring in Computer Science with a GPA of 3.62/4.00 and one year of internship experience as a Programmer. Experienced in software development using React.js and Node.js, with exposure to requirements gathering and analysis, system modeling using UML, and technical documentation. Familiar with the Software Development Life Cycle (SDLC), with an interest in software development and system analysis.

EDUCATION

Universitas Bina Nusantara | Jakarta, Indonesia

Bachelor of Computer Science (Aug 2022 - Aug 2026)

- **GPA** (3.62 /4.00) [transcript]
- **Relevant Courses/Studies**: Software Engineering, Mobile Programming, Database Technology, Object-Oriented Programming
- **Thesis Title**: *Development Of An Android Mobile Application For Beauty Service Recommendation Using The Simple Additive Weighting (SAW) Method*

PROFESSIONAL EXPERIENCE

PT Pro Sistimatika Automasi (PROSIA) | Jakarta, Indonesia

Programmer Intern (Feb 2025 – Feb 2026*)*

- Identified and resolved bugs across frontend and backend systems using React.js and Node.js
- Implemented small-scale features and enhancements, including database-to-UI data integration and an Excel export function
- Followed a Git feature-branch workflow, creating branches, pushing changes, and coordinating with senior developers for code review before deployment
- Participated in team meetings to discuss task assignments, estimate completion timelines, and coordinate delivery schedules with senior developers.

PROJECT EXPERIENCE

Key (**2026***)*

Thesis Project - Android Studio, Java, Figma, Visual Paradigm

- Gathered and analyzed customer and service provider requirements through questionnaires, then modeled the system using use case, activity, and sequence diagrams.
- Authored the majority of the thesis documentation, covering system design, implementation, and testing.
- Developed an Android app enabling users to discover beauty service providers, book services, and manage reservations
- Designed provider-side UI/UX in Figma

EventGo(**2025***)*

Final Project Mobile Programming Course - Android Studio, Java, Figma

- Developed the event ticket booking feature and implemented user authentication with Firebase Authentication
- Integrated Firebase Realtime Database for application data management

SKILLS

- **System Analysis & Documentation:** UML (Use Case, Activity, Sequence), SDLC, Technical Documentation
- **Project & Collaboration Tools:** Trello, Notion, Git
- **Productivity Tools:** Microsoft Excel, Word, PowerPoint
- **Technical:** JavaScript, Java, SQL, C, React.js, Node.js, Laravel
- **Design:** Figma, Visual Paradigm
- **Soft Skills:** Communication, Teamwork, Problem Solving, Time Management
- **Languages:** Indonesian (Native), English (Intermediate)
